SKILLS

- HTML
- CSS
- Tailwind CSS
- JS
- React JS
- Node JS
- Express Js
- MongoDB

MY PROFICIENCY

Responsive and Dynamic UI

I Can create responsive user interfaces with Tailwind CSS and Bootstrap, I excel in injecting dynamic functionality using React.js and JavaScript. With React.js, I enhance user interfaces by seamlessly integrating interactive elements, real-time updates, and smooth transitions.

Form validation to data fetching. I create dynamic user experiences that adapt to user inputs and deliver seamless browsing experiences across various devices.

Backend Development

In Backend development, I excel in:

- Authentication and Authorization: Implementing secure access controls.
- DBMS: Managing & Storing data with MongoDB.
- API Development: Creating Restful API's by using Node and Express Js
- Web Sockets: I can create real time updates using Socket.io

EDUCATION

Matric

The Leader School System (2018-2020)

Intermediate

Government Post Graduate College (2020-2022)

University

Virtual University (2023 -)

LEARNING JOURNEY

React JS

I Learn React JS From Youtube

Node Js

I Learn Node js From Youtube and Zero to Mastery Course

Instructor : Parwaz Technical Institute (Sir Usman)
